OCTOBER 10, 2020

Featuring artwork created by
adventure enthusiasts

Patrick McGrady

pmcgrady.myportfolio.com
patrickmcgrady@gmail.com

Patrick McGrady is a graphic designer, videographer and outdoor enthusiast from Asheville, North Carolina. While in Western North Carolina, he found his passion for the outdoors by going climbing, kayaking, mountain biking or hiking out in the Blue Ridge Mountains. He now works as a freelance graphic designer, focusing on transforming outdoor photography into colorful illustrations. Over the summer he established a shop that sells prints of his work and began designing shirts, stickers, water bottles and posters for a camp in 2021. He is beyond excited to be part of the Art Show by Project Send It.

mriorda@gmail.com

"Fjall" translates to mountain in Icelandic. For 3 years I lived surrounded by the great glacial mountains Eyrarhlíð and Kirkjubólshlíð in the town of Isafjordur in the Westfjords, and made constant trips up and down . From a distance the landscape will appear dead and inhospitable, but upon closer inspection color explodes from every grain of dirt, every rock surface, and every plant leaf. It takes time to uncover its beauty, and it is a privilege to see the beauty that it offers. This piece is my gratitude for those mountains, for their extraordinary existence, and my deep hope that others too will find the colors that previously eluded them in life.

 @softhefrog

For years watercolor and sketching were my favorite ways to express myself, until I ventured into wood burning a few years ago and fell completely in love with it. Suddenly another dimension was opening up, and I enthusiastically dove into it. Month after month, I learned about wood, how to “read” it and start a “conversation,” somehow channeling my dad who was a wizard wood worker/cabinet maker. Yet I still felt that watercolor had to be part of that journey: hours of experimenting ensued with a familiar medium on a not-so familiar support! I had to find the right wood to serve as the foundation of this curious marriage: hard maple has emerged as the ideal environment.

As a climber, I have an endless love for the outdoors and the natural world. Every time I find myself surrounded by or on the top of high summits, or wander through the wild flowers of a meadow, I feel humbled and in constant awe. Burning millions of lines into the wood, finding the path, is a bit like solving the complexities of a climb: wandering through the uncertainties of what is beyond the next crest, over the next mountain pass. Natural lines for a natural world. And as it is in the wilderness, art continuously allows me to search, trip and get back up again, face a sometimes unsettling environment, but ultimately finding myself in a place of wonder and humility. It is a constant journey.

Tiffany Guinn

tiffani.sahara@gmail.com

Tiffany has loved to make art since she was old enough to hold a crayon. In 2010 she obtained a Bachelors of Fin Arts from Rocky Mountain College of Art = Design.

A jack of all trades she works in both traditional and digital media including watercolor, acrylic, oil, chalk pastel, colored pencil, inks, Photoshop, and Illustrator.

Tiffany has always had an adventurous spirit and was constantly in trouble for climbing things as a kid. She enjoys traveling with her husband and dabbles in rock climbing and mountain biking.

Celin Serbo

celinserbo@earthlink.net
www.serbophoto.com

Growing up in the Sedona, AZ area was what initially sparked my interest in the outdoors. Rock climbing became my passion in the mid 90's which led to a guiding career until 2004. During those adventures for both work and personal trips I started bring a camera along which eventually led to a transition into a full-time photography and video career until 2018. I currently drive school buses for Boulder Valley School District and painting seemed like a great way to still maintain some sort of creative outlet. I mostly paint desert landscapes that I've had a personal connection with.

Jin Kwon

jinhye.kwon@gmail.com

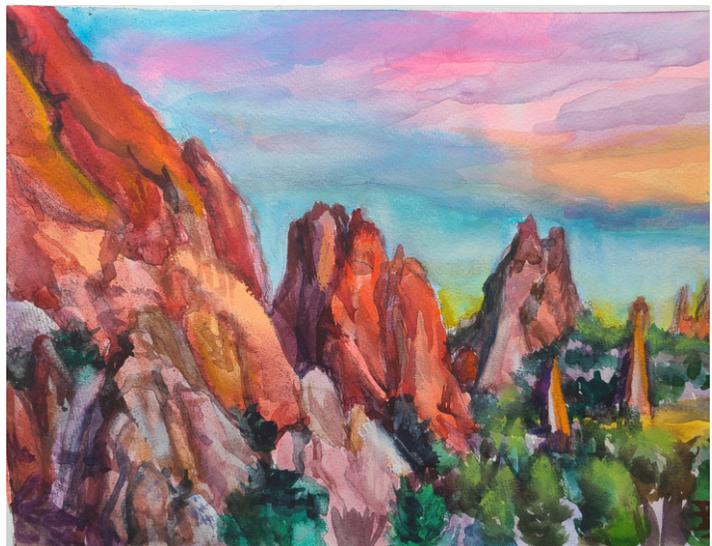

Throughout her life, Jinhye Kwon was always fascinated by the colors of nature from her homeland to the Colorado mountains. As a passionate outdoor hiker, climber and traveller, her art expresses her travel and adventures. The light and colors of the earth, flowers, different shades of the trees, sky, and clouds inspire her. She uses watercolors, pastels, and acrylics. Watercolors are the perfect medium to express emotion with brushwork. The quality of immediacy, transparency, and glow create magic on the paper.

Jinhye Kwon was born in Daegu, South Korea, and started studying art when she was 11 years old. She studied Fine art in Sunhwa art school and Ewha Women's college in South Korea. She taught art to children and worked at the Korea Broadcast Station shortly as a makeup artist.

Recently, she started painting again and it became her sanctuary during the pandemic. She wishes her art will bring the joy of life to others as it does to her. Drawing things makes them seem more real and makes her feel more alive. It also makes her pin down and remember landscapes, seasons, weather, occasions, incidents, and people that would otherwise have melted from her memory.

Allie Winston

alliekat09@live.com
alliekatillustrations.com
 alliekatillustrations

My art lives in a whimsical world overflowing with vibrant color and energy. I have always been interested in subject matter that induces imagination and emotion from the viewer. I combine inspiration from the everyday natural beauty that lives around us with somewhat abstract concepts and beliefs. These abstract themes include renditions of unique concepts that are outside of our regularly perceived world, such as spiritual beliefs, cosmic energy, and alien beings. As a spiritual soul and empathy, I am always inspired to incorporate these traits into my artwork.

As a lifelong visual artist, my history with art has been extensive and starts from an age so young that it is difficult to pinpoint. Many years were spent in classes that focused on developing technical skills and practices in which prepared me for the next step in my artistic journey. It wasn't until I attended Denver School of the Arts as a Visual Arts major that I began molding my creative ideas and combined them with my previous techniques. While attending DSA, I discovered my interest in vivid colors and graphic styles.

Although Colorado was not my home as a child, I am a true Coloradan at heart. I am constantly influenced by the living beauty that surrounds me. One of my beloved pastimes is exploring and photographing the Colorado Rockies while soaking up the spirit of life. I truly believe that nature is the purest form of divine energy and having it at my fingertips amazes me every day. This powerful energy feeds my inspiration. Through my art, I aim to capture this energy and incorporate it with my interest in unique and spiritual motifs.

Lois Kempney

llucekempney.wixsite.com/loisthelittle

loisthelittleart@gmail.com

 @loisthelittleart

Lois Ann Luce Kempney is a Colorado based artist inspired by the little moments and the big places around her. Through illustration and design, she expresses a colorful palette and bold line work to each piece she creates. Her playful expression is shown through her choices with gouache and watercolor mediums, while her pen work shows her eye for structure and detail.

Lois Ann's artwork can be found in the homes of art enthusiasts, cover art for music, on promotional pieces, businesses logos, graphic designs for clothing, and many more. She is currently in the process of illustrating a few children's books, including her own.

These specific pieces were all painted during climbing trips. These paintings are a glimpse of the beautiful places that climbing takes her to. These paintings are her way of capturing and sharing the peaceful and colorful moments.

Daniel Perry

chiroTitan@gmail.com

Dan Perry is a local chiropractor servicing the Denver Metro. His business model is unique because he comes to you at your office! Dr. Perry has found that employees need chiropractic help. They don't have time to leave work so he comes to them. Chiropractic is efficient, effective, and makes them better employees. Chiropractic helps decrease pain, improves ability to move, and decreases stress to the body. If your office needs some chiropractic help shoot him an email.

In his down time Dan has found a passion for photography and art. He is drawn to wildlife and sports. He has printed his work on canvas and metal and shares the majority of his work on Instagram and Facebook. He has a unique outlook on creating art. From photography to videography his style can go from humorous to realistic to abstract. He is a one man band with his company and sees content creation as an essential aspect to life and business. Being creative is a huge party to happiness.

Joe Freemond

jfreemondvisuals@gmail.com

jfreemondvisuals.com

@jfreemond

I am freelance photographer based in Denver, CO. My passion lies in creating authentic imagery with feeling and emotion, while embracing the journey along the way. Having grown up in Colorado I am always at my happiest when in the mountains, especially with skis on my feet and my dog Enzo at my side. Long before I got into photography I spent years in the food industry working as a chef among many other roles, and food still is a major source of joy and inspiration for me. When I'm not working you can typically find me exploring outside with friends, skiing, camping, backpacking, and cooking.

Although I do have certain specialties in my photography, my work spans many arenas including commercial, outdoor adventure, lifestyle, food & restaurants, weddings & engagements, and events. I use mixed mediums including digital, 35mm, and medium format film with an emphasis on natural light to capture humanizing moments.
